

# 200T Standard Running Line Monitor

## RLM200T-3.0-S

The DLM 200t Running Line Monitor measures the tension on a rope passing through its three wheels. Typically used in cable laying and winch operations to measure and record line tension the robust design has become an industry standard.

The monitor can be supplied as a separate item for integration with customers existing PLC's or with a DLM digital display/HMI touch screen display.
