

# 5t SG Cutting Hook

**A single steel holder for the second generation Flatfish type cutting blades (Curved or Straight) with a single eye at the front end to secure a holding rope or wire.**

Its 5t WLL allows the ship to cut cable where the cable hasn't been cut on the seabed with a flatfish grapnel or other cutting devices.

## Features:

- Lightweight
- Uses standard cutting blades from Flatfish Grapnel

## Applications:

- Cutting of cable where cable hasn't been cut on seabed
